JUDGEMATE

ALLIANCE UNIVERSITY

Hackathon Evaluation Management

A shared workspace for event setup, mobile judging and final score reports.

What it does

JUDGEMATE helps an event administrator organize multiple hackathon events, collect consistent judge scores and prepare an end-of-event report.

ADMIN SETUP

Events, teams, judges, categories and assignments.

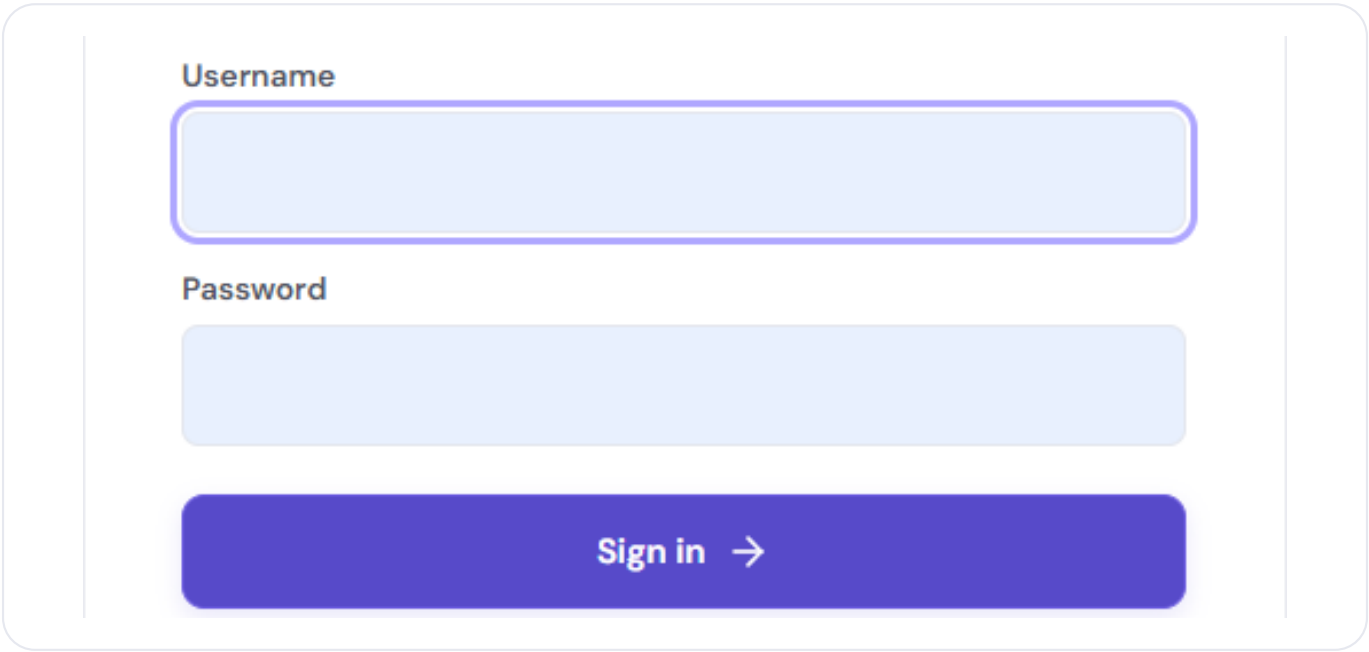

MOBILE JUDGING

Judges score only their assigned teams.

FINAL REPORT

Rankings, judge details, feedback and exports.

SIGN-IN SCREEN

Interface screenshot with login field values redacted.

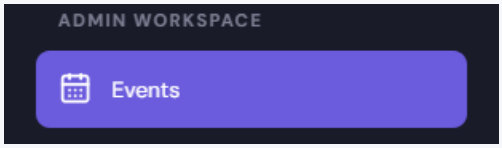

Live application

https://judgemate-au-2026.web.app/in/

PROJECT WORKFLOW

1. Admin prepares the event

The administrator configures the judging structure before scores are collected.

ADMIN EVENTS NAVIGATION

The admin workspace is the starting point for event management.

1 **Create an event**

Enter the event name, date and venue. Each event keeps its own teams, judges and results.

2 **Add teams**

Record team names, project titles, members and project details for judges to review.

3 **Add judges**

Create a separate username and temporary password for each judge.

4 **Set categories**

Define scoring categories and the maximum marks allowed for each category.

5 **Assign teams**

Choose judges for each team, or distribute teams evenly across judges.

6 **Open judging**

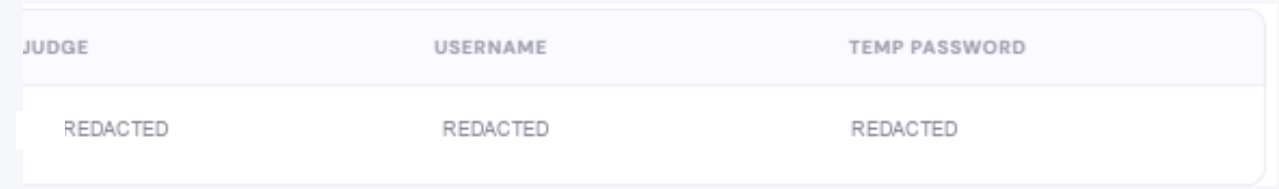

Start evaluations when setup is complete. The event becomes available to assigned judges.

Admin access: Judge credentials are available in the event's Judges panel. Credentials are kept in an admin-only Firestore collection.

PROJECT WORKFLOW

2. Judges score; admin reviews

Judges can use the same link on a phone, tablet or computer. Scores are saved centrally for the admin.

JUDGE	USERNAME	TEMP PASSWORD
REDACTED	REDACTED	REDACTED

JUDGE CREDENTIALS SCREENSHOT | ALL CREDENTIAL VALUES REDACTED

1 **Sign in**

Open the JUDGEMATE link and use the event username and password.

2 **Review assigned teams**

The judge sees only teams assigned to their account, with project details.

3 **Enter scores**

Score each category up to its maximum marks and add written feedback.

4 **Submit**

Save or update an evaluation while the event is open. Closing the event locks scoring.

ADMIN FINAL REPORT

The report brings together team rankings, category leaders, judge-by-judge scores and written feedback.

Rankings
Average team scores

Categories
Category leaders

Judge details
Scores and feedback

Exports
PDF and Excel

PLATFORM

React + TypeScript | Firebase Authentication | Cloud Firestore | Firebase Hosting

Firestore rules protect event administration, limit judge views to assigned teams and check scores against category maximums.
